Mr. Dale Hatfield
Chief, Office of Engineering and Technology
Federal Communications Commission
2000 M Street
Washington, D.C. 20554

Dear Mr. Hatfield,

Sprint filed an Initial Service Disruption Report with the Federal Communications Commission (FCC) Watch Officer on January 30, 1999 concerning a service disruption incident in Las Vegas, Nevada. The initial report was provided due to one known Federal Aviation Administration (FAA) circuit being involved. This circuit serves a location at Las Vegas McCarran International Airport, a Large Hub airport as defined by the FAA.

Further investigation by Sprint has determined that the FAA circuit involved does not meet notification requirements as defined in Part 63.100 of the current FCC rulings.

Based on these findings, Sprint requests that the January 30, 1999 report for Las Vegas, Nevada be withdrawn.

Please contact me at 913-624-3111 if there are any questions concerning this report.
